

## TRIESENCE Site Updates 12-3-24

**1. GENERAL.** When you're in the menu, and you click over How to Order and then click on Contact Us (in this final one there's a vertical pixel off respecting the How to Order menu element). Please fix. How to Order and Contact Us items should be in the same line so when the user clicks in either item, it stays in the same line therefore doesn't move up.

**2. In REIMBURSEMENT and CONTACT US pages.** All the dropdowns should have the arrow at the right facing up while the user clicks in it.

Role\*

- Healthcare Professional
- Medical Staff
- Other

Role\*

**3. MOBILE.** In the HOW TO ORDER page. Please make the line-height of this text: line-height: 38px.
